

TALKS ON TEETH

By G. Gordon Martin, M. D., D. D. S.,
Inventor and Patentee of the Al-
veolar Method of Dentistry.

PALESTINE, TEXAS.

My object is to talk to people who object to plates that are not serviceable and cause discomfort, and partial plates that are rapidly causing destruction to their natural teeth, or who have bridge work that is little less objectionable than plates and that lasts only a year or so.

I desire to come in touch with the above mentioned people and tell them how, by my Alveolar Method, to have teeth that can crack nuts on—no plate or bridge work—just the teeth in their natural position, teeth that will last forever. It will positively tighten loose teeth, replace the missing ones, and cure all diseases of the gums. Isn't this better than bridge work or plates? I have United States patents on this work.

Write me and I will give you names of men and women for whom I have done this work whose word you will not question. If I fail to do just as I say, I will pay your traveling expenses both ways and hotel fare while here and do your work over, free of charge. I can do any kind of dental work, make as fine plates as can be made, guarantee it to fit, but my method is so far superior to that in cleanliness, durability and usefulness that I feel it only just that I tell you, and it will cost you nothing to have me make an examination.

I have no testimonials, but references of bankers, lawyers, judges, stockmen, farmers and men and women in all walks of life. You will find my work all over Texas, in many cases fifteen years old.

Now, if you have loose teeth (or if you have had them extracted and still have them, bring them to me.) I will put them back, if desired, and tighten them so that no dentist can pull them out.

Remember, too, that I only require two or more old teeth in order to make you a full set, and in my most difficult cases will not require more than two days to complete the work; it is then complete, no coming back, as I guarantee to tighten them right now, and you will know before leaving the chair that they are tight.

You may wish to know why I do not teach my method. It is because it would be abused and bridge work would be substituted, as is being done in many places already. I have no connection at present with any office except at Austin, Texas. Through my attorney, Judge Bouldin Rector of Austin, Texas, I sold my right and the use of my name to northern parties. (See talks on teeth by G. Gordon Martin in New York World, New York Tribune, Chicago American, Chicago Tribune, Kansas City Journal, and all leading papers of the north), and only reserved Texas for my personal practice, which is \$10,000 a year.

Now, if your dentist tells you that you will have to have your teeth extracted, and that Pyorrhea cannot be cured, and have a plate put in, and that he has done all in his power for you, then come to me and I will make you a set of teeth without bridge or plate that you can take corn off a cob, crack nuts, eat ice—eat anything that any child can eat.

Every family in Texas should keep my Pyorrhea mouth wash. It is invaluable for children, as it destroys the germ and will prevent Pyorrhea. Price \$1.25, express prepaid.

Send for Free Booklet "Alveolar Dentistry."

SOMETHING NEW JUST ARRIVED.

Porter on tap at Halporn's Saloon.

South Carolina T. P. A.

(Herald Special.)
Charleston, S. C., April 29.—Traveling men from all sections of South Carolina rallied here in force today for the annual convention of the state division of the Travelers' Protective Association. The visitors upon their arrival found that nothing had been left undone by the local committee that would contribute to their entertainment during their two days' stay in the city. The convention will elect officers for the year, choose delegates to the national convention to be held at Asheville and consider and act upon several important proposed amendments to the constitution.

Was False Alarm.

This morning at 10:35 an alarm of fire was turned in, caused by a trash fire at the H. W. Clarke home, which some one mistook for an outhouse. No damage.

Try a Gas Heater for these cool mornings.

TORNADO HIT KANSAS

Aged Man Died of Fright, One Woman and Two Men Injured, and Many Houses Destroyed.

(Herald Special.)
Douglas, Kas., April 29.—A tornado passed through the southern portion of Butler county last night and demolished many farm houses. Ten residences here were destroyed. Louis Ayers, age seventy years, living at Augusta, was frightened so badly he died within a few minutes after the storm passed. Mrs. J. J. Jones was seriously injured, and two farmers were slightly hurt.

STARVES IN MIDST OF PLENTY.

Hotel Steward of Akron, Ohio, Gradually Weakens and Dies.

Akron, Ohio, April 28.—Chosing to live alone in a rear room, William Murray Andrews, former minister and steward of a local hotel, literally starved himself to death, either from choice or because he could not eat. "I am dying inch by inch, starving to death. I have not eaten a whole egg for a week. I am very weak indeed." This was the note Andrews left under date of April 25 in an account book that was found in his room.

Stoically the man starved himself to death, while each day he supervised the preparation of elaborate meals at the hotel. Andrews graduated from Heidelberg University at Tiffin, Ohio, and was a reformed minister for some years, holding pastorates at Greensburg, Hillsboro, Ohio; Anna, Ill., and Clayburg and Duboise, Pa. On account of doctrinal difficulties and domestic troubles he left the ministry.

NO TIPS FROM HETTIE GREEN.

Gives Hotel Attendants a Little Advice When They Line Up.

New York, April 28.—When Mrs. Hettie Green paid her two weeks' bill at the St. Regis, where she had been in seclusion, she was confronted last night as she marched from her apartment by a long array of hotel attendants in glittering uniforms. It is customary for patrons of such a hotel to liberally tip the servants on departing and they line up for that purpose. Mrs. Green looked at them for a moment, gave them some good advice about walking and exercise, and departed.

TEXAS NEWS NOTES.

The supreme court has reversed the court of criminal appeals relative to phases of local option elections.

Petitions signed by 4,075 qualified voters asked the Jefferson county commissioners to call an election to vote on \$100,000 deep water bonds.

Marvin Holland was killed near Edge. Tom Closs surrendered.

The event in the Knights of Pythias Grand Lodge meeting Wednesday was the ovation given to Keeper of Records and Seals Miller.

Not having asserted their rights for nineteen years, owners of an El Paso hotel are now precluded from seeking damages from the Southern Pacific railroad for the operation of trains on the streets.

Pilson says that it is the jail or the poorhouse for the lumber men, referring to the proposition of Bolling Arthur Johnson.

The Laurentic Leaves Liverpool.

(Herald Special.)
Liverpool, April 29.—Amidst loud cheers from a large assemblage, the magnificent new triple screw steamship Laurentic, of the White Star line, sailed out from this port on her maiden voyage to Quebec and Montreal today. The event was a notable one, and the many Canadians and friends of Canada in the mother country made it a red letter day. The steamship sailed with a full passenger list and a large cargo of freight. The Laurentic, which was recently completed at Belfast, is propelled both by reciprocating and turbine engines. Her departure marks the inauguration of the White Star-Dominion line's new Canadian service. She will be followed by the new Megantic in June. These two vessels will be the largest employed on the St. Lawrence service.

Church Feud Case in Court.

(Herald Special.)
Providence, R. I., April 29.—Robert Russell was arraigned for trial today on a charge of murder in connection with the death of Deacon Nelson Morgan of the Olney street colored Baptist church. Russell is alleged to have shot the deacon while the latter was standing on the church steps. The affair was the culmination of a feud which has existed between two factions of the church for a long time.
